

We would love to show you our travel tools under this link. But then it would be too easy for another guides to copy my hard work (as they did many times...). See the blue-highlighted commentary about our travel tools:

Dear Sarka,

Happy New Year! Thank you so much for the wonderful time you showed us during our first trip to Prague in early December. We had a great time touring your beautiful city with you. You are a very knowledgeable guide who shows true passion for her city. Learning about the city through your eyes and experiences also helped us understand Prague's interesting history and culture. The city became alive with your historical commentary and fun anecdotes. [We also appreciate the map and historical timeline you provided - they became our most helpful tools during our own walks around the city.](#)

Thanks again for making our first trip to Prague so much fun! It was the highlight of our European vacation. We've already recommended you to our friends, colleagues and family. We look forward to enjoying your company again during our next visit to the Czech Republic.

Sincerely,

Robynne and Trevor Jungerman
